WORK EXPERIENCE

Front-End Developer

OOO "Фаворит"

📅 January 2019 - April 2022   📍 Volgograd

- Using popular frameworks and libraries such as React, Vue.js to simplify and speed up the development process.
- Eliminate performance bottlenecks and work to improve page load times.
- Ensuring that web applications display and work correctly in all popular browsers.
- Development of adaptive interfaces that display correctly and work on devices with different screen resolutions (mobile phones, tablets, desktop computers).
- Interact with APIs and other backend services to receive and send data.

Fullstack Developer

Freelance

📅 January 2022 - January 2024

- Development of application architecture, including selection of technologies and tools.
- Rewrote HTML to meet industry and company standards for SEO and Accessibility. This drove a 600% increase in users by appearing on the first page of Google search results.
- Creation of database structures and API design.
- Working with front-end frameworks such as React or Vue.js to develop interactive components.
- Ensuring that client expectations are met and all assigned tasks are completed on time.
- Train clients to use the application and provide necessary support.
